ALMA MATER

Here below the Massanutten,
With its view sublime,
Stands our noble Alma Mater
Glorious to define.

Montevideo, we will love you
Ever, always true,
For your light will lend its beams
To us, our whole lives through.

Here we get our inspiration,
Make our friendship ties,
This we owe, dear Alma Mater,
Montevideo High.

Chorus:
Montevideo, Montevideo
School we love so dear,
Ever loyal, true and loving,
Faithful through the years.

FOREWORD

The final cheers of a victorious game

Spirit is the intangible something which gives our school life enthusiasm.
Puts smiles on the faces and songs in the hearts of both students and teachers.
It gives the football, basketball, or baseball player the desire for victory.
Rehearsals are attended a countless number of times by bandsmen and by the cast of a play,
In order to perform their best for the school.
The spirit of Montevideo can be seen in every phase of school life--from the
Obvious and unsuppressed excitement of the eighth grader cheering his team on to victory--to the
Final moment when the senior proudly accepts his diploma.
Maroon can be proud of their school and the spirit which will
Happily bring them into the brightest of the future and
Show them a more enjoyable and profitable way of life.

Or the closing minutes of a
sorrowful defeat.

IN MEMORIAM

MR. BOYD J. GLICK

"To live at the foot of a great mountain and to ponder its loftiness and majesty gives a real lift to one's thoughts and aspirations." B.J.G.

The Massanutten Peak with its towering splendor symbolizes for the students of Montevideo High School strength and endurance; and with the budding of the leaves in spring each student is filled with a rebirth of hope for the future.

Just as the peak has inspired Montevideo, there remains in each of our hearts and minds memories of one man who gave the best years of his life for Montevideo students. He was a friend to the young and old, rich and poor. His leadership and counseling were limitless. Just as he guided the eighth-graders on the

road to maturity in facing their high school education, he also inspired the seniors to set higher ideals for the attainment of a richer life after graduation. He once said, "May whatever success you have achieved in the past in no way climax your accomplishments, but rather serve as stepping stones to higher, nobler things in the years ahead."

Therefore, for his immortal contributions to the students of Montevideo High School, the 1966 Senior Class commemorates its annual to our former principal, Mr. Boyd Joseph Glick.

ACADEMICS

THE STUDENTS OF MONTEVIDEO HIGH SCHOOL STRIVE TO EXCEL IN ALL PHASES OF SCHOOL LIFE--SCHOLARSHIP, LEADERSHIP, SPORTS, AND OTHER EXTRACURRICULAR ACTIVITIES. THIS YEAR EVEN

GREATER EMPHASIS HAS BEEN PLACED ON SCHOLASTIC ACHIEVEMENT. ACADEMICS EXPRESS ONE ELEMENT OF THE "SPIRIT OF M. H. S."

Chemistry students, Larry Glick and Jane Long, are lost in a world of test tubes, flasks, acids, and pneumatic troughs. Mr. Mast, our teacher, brings order to confusion and assures us that it won't blow up.

WORLD OF DISCOVERY

This is the world of the microscope. Through this instrument students, such as Karen Smith and Brenda Whitmore, observe everything from a cork cell to a microscopic animal. Biology students also perform dissections on such things as earthworms, frogs, grasshoppers, and fish.

In Mr. Cross' history class a large emphasis is placed upon the perils of Communism. Students, such as Gayle Morris and Alicia Meadows, cover the important men and events from Colonial times until the present day.

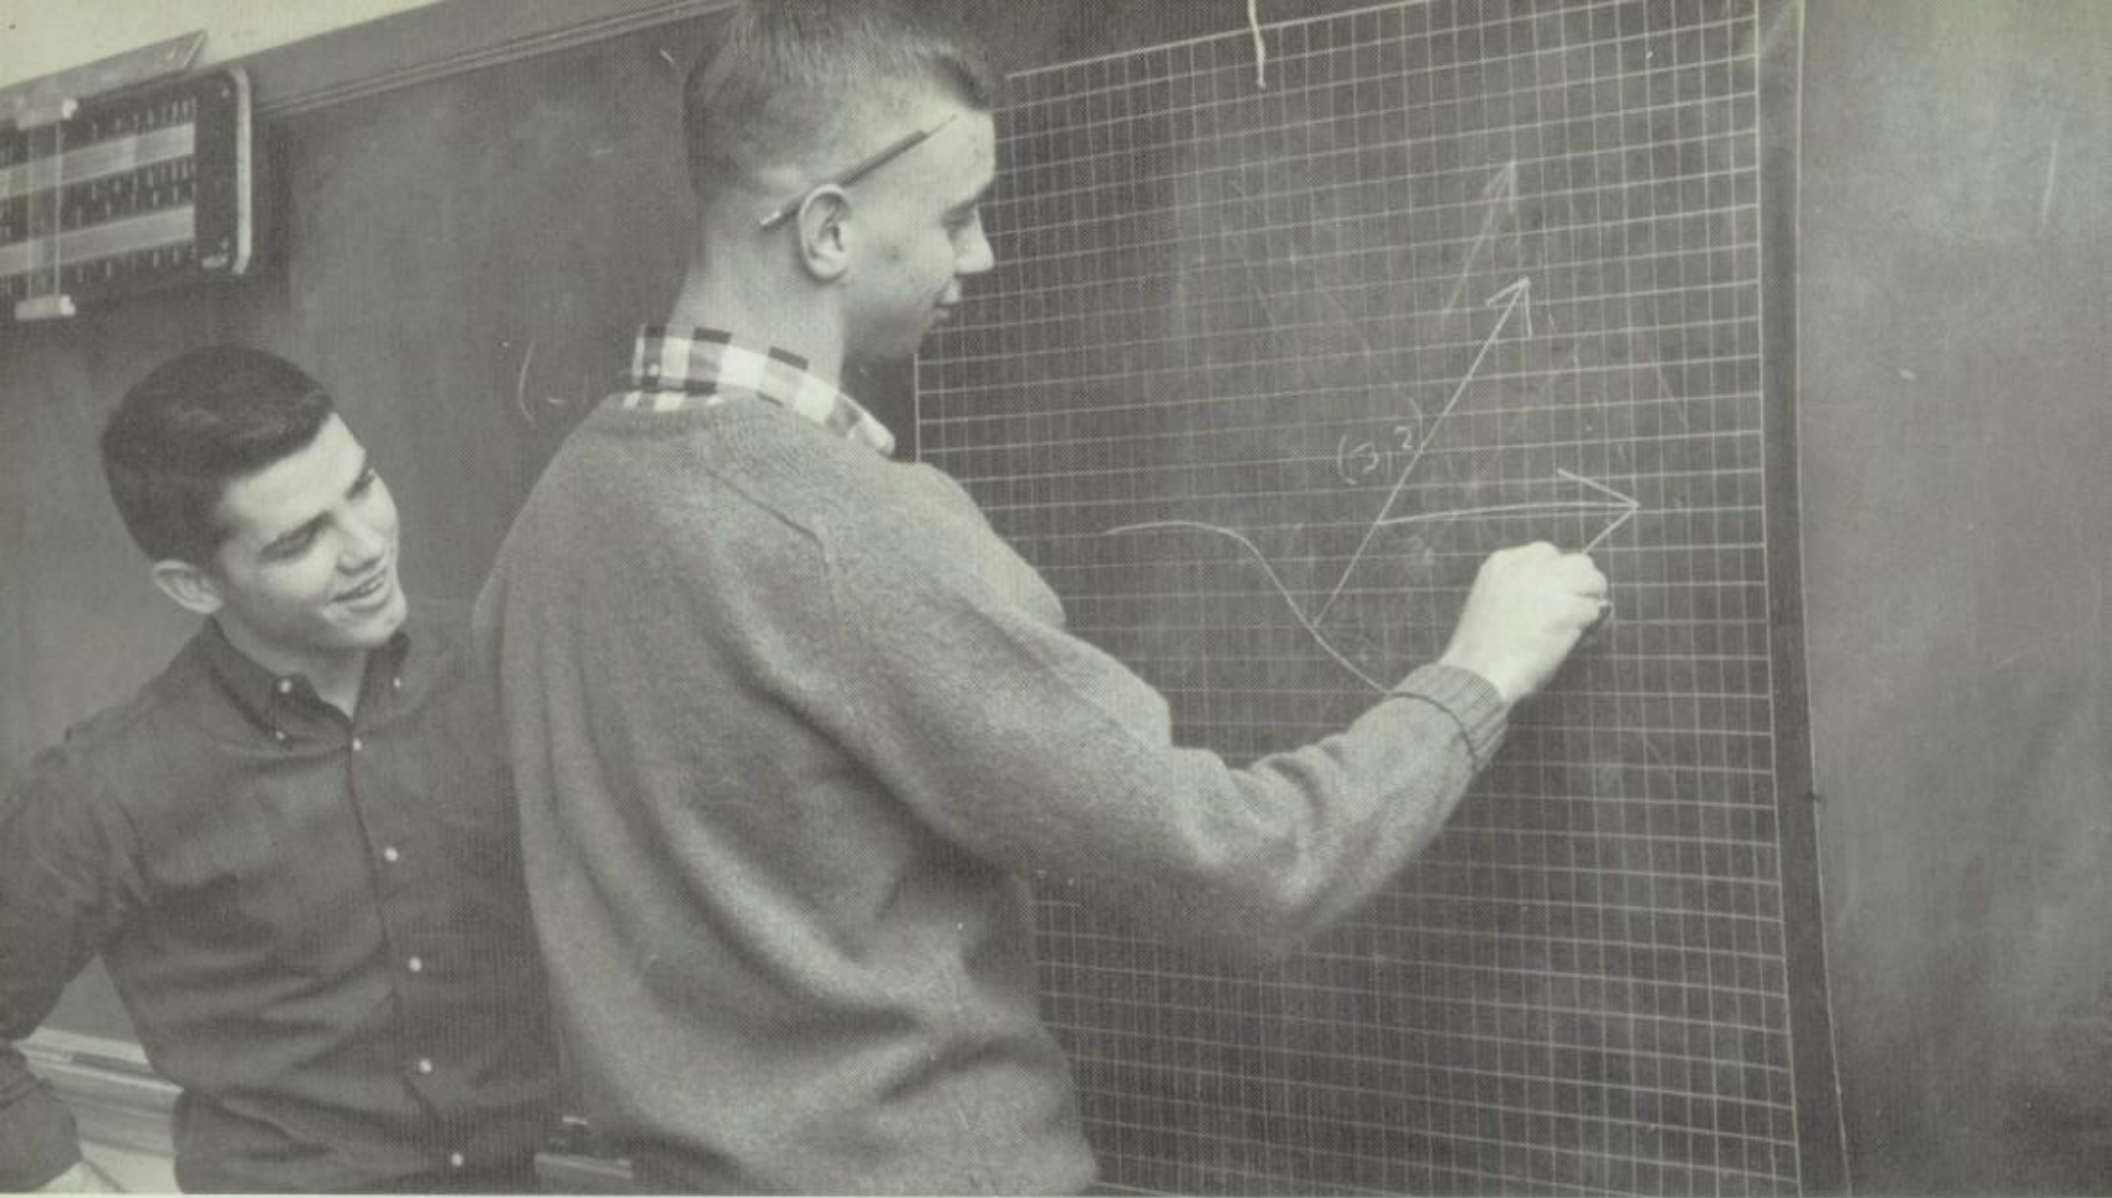

Mrs. Voorhees' social studies classes discover the world of America's past. They also become involved in the study of other countries. Here Judy Wright and Debbie Davis inspect a map of Virginia.

PAST AND PRESENT

Miss Wright's students travel from the time of primitive man to the time of recent civilizations, studying the culture, inventions, political situations, and the way of life of each.

The better citizens of tomorrow, Kathy Morris, Winston Harmon, and April Jackson, are interested in national and local elections and current events as well as the study of the workings of state and national government.

Analysis students, the members of Mr. Pence's new advanced math class, are troubled by such unfamiliar terms as vectors, limits, and sequences. Larry Suter and Steve Rosson are involved in a vector problem.

MATHEMATICAL EXPLORERS

Algebra students, David Wilbeger and Karen Monger, are confused by monomials, polynomials, the power of a product, and the product of a power.

In geometry, students, Jean Long and Bill Armstrong, enter the domain of the triangle, trapezoid, and the parallelepiped.

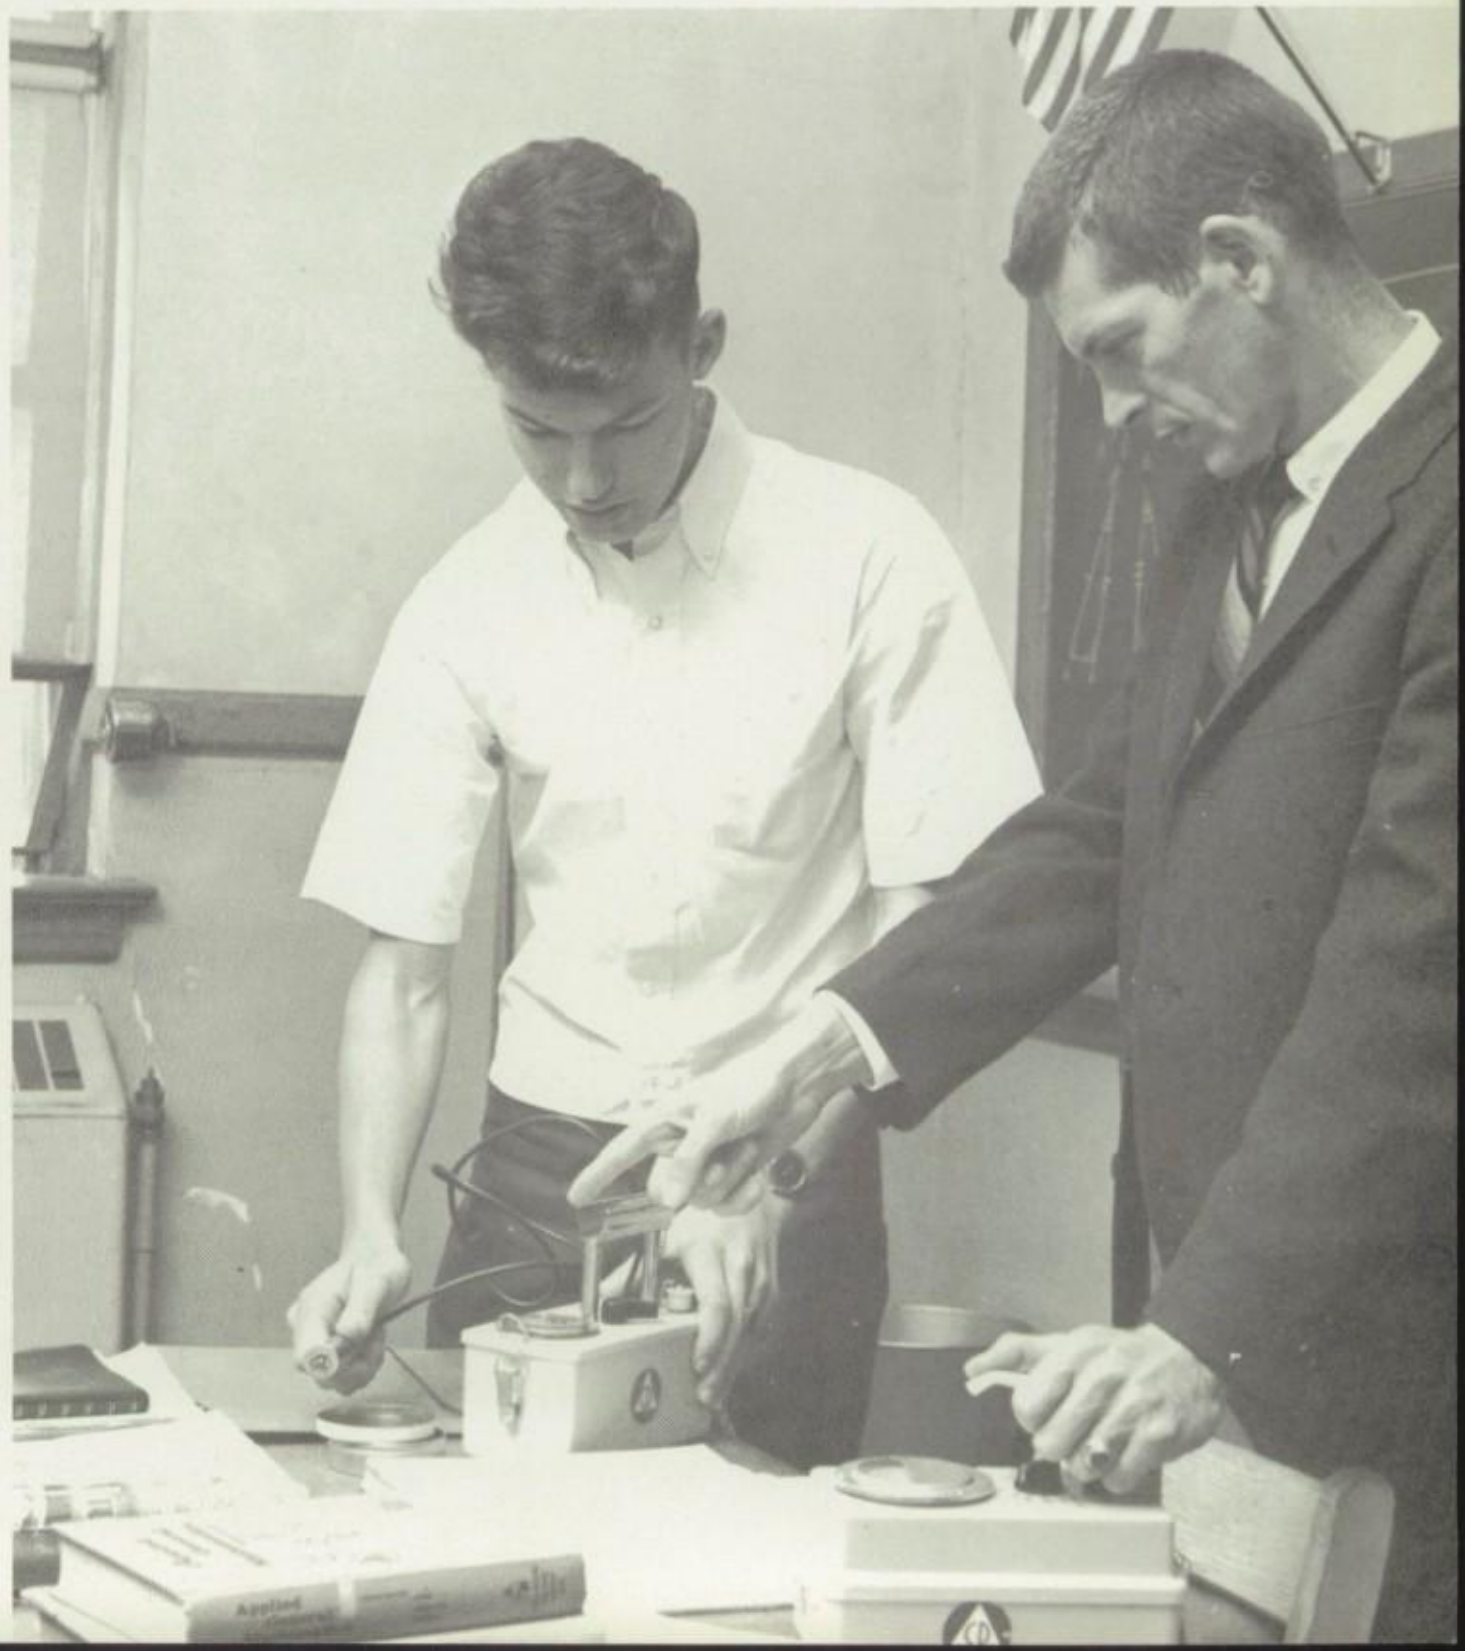

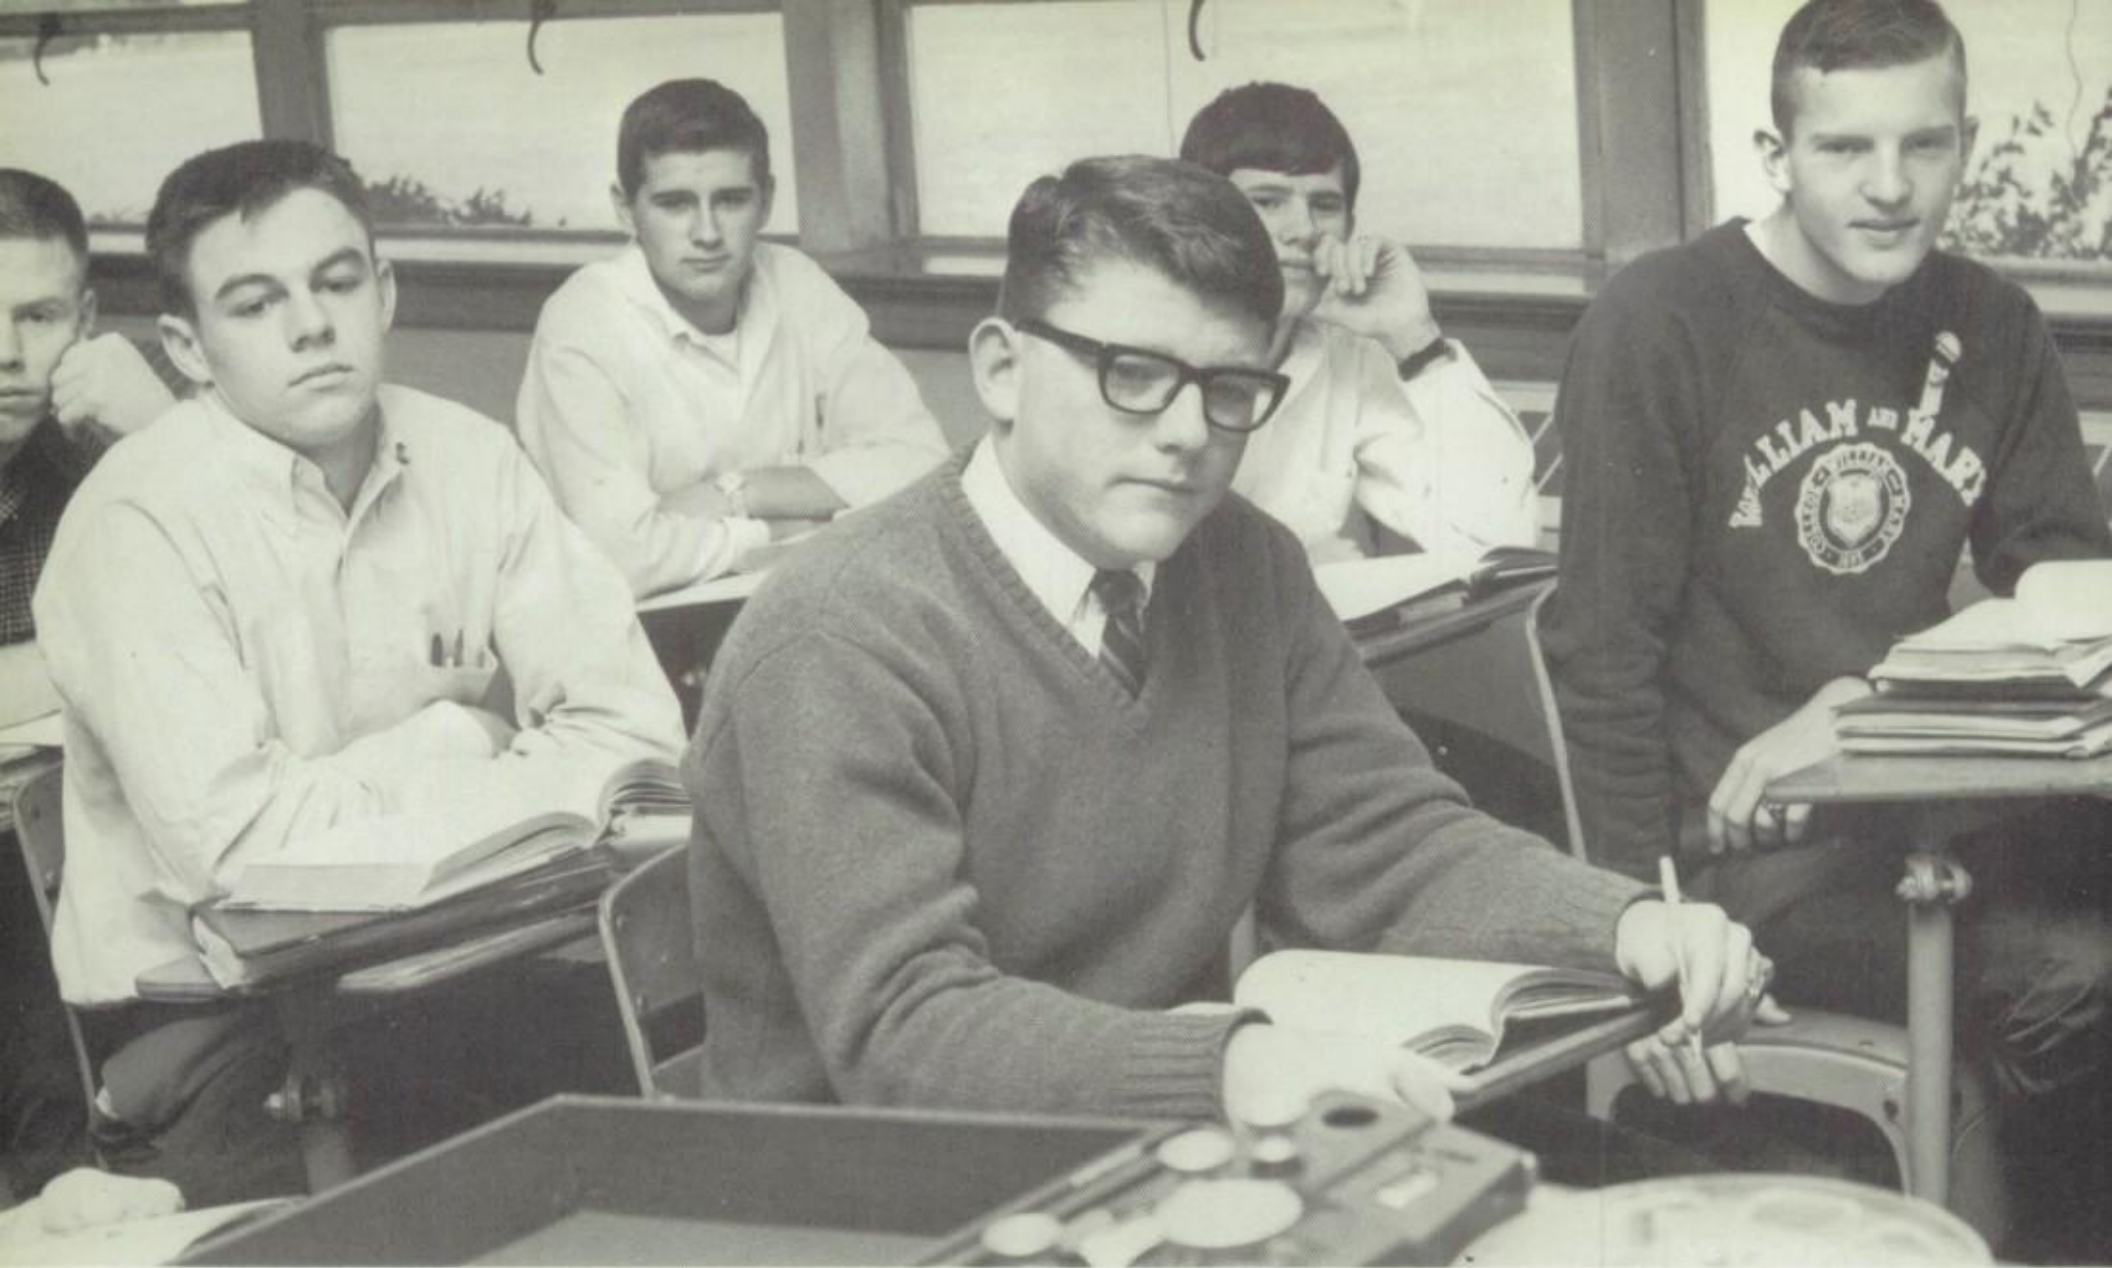

Montevideo's new curriculum addition, taught by Mr. Cross, deals with the complex world of industry. Economics is useful to students entering any phase of employment.

In this business education class, students, Peggy Dove and Stella Shifflett, become familiar with business math problems.

In physics, Mr. Williams' students learn to use given formulas in determining such things as how fast an object will fall under prescribed conditions. Here Mr. Williams and Winston Harmon experiment with a Geiger counter.

The use of a tape recorder and tapes in French is very beneficial to French students, Eddie Lam, Jim Glenn, and Randall Kennedy, who must converse in class in French in order to help them master the language.

THE LANGUAGES OF ROMANCE

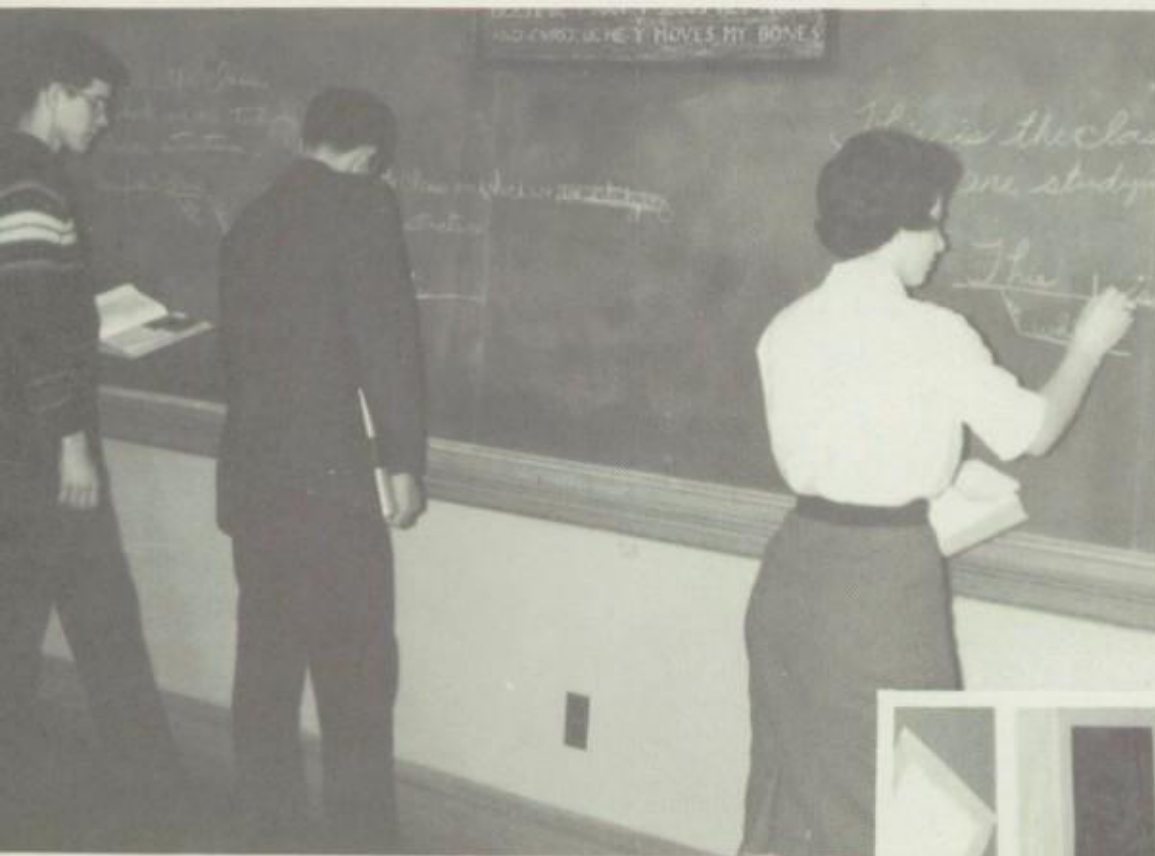

Mrs. Cobbs' Latin students, learn to "memoria tenete" declensions, cases, gender, and Roman life and history. The photographer caught Douglas Rodgers and Brenda Snelson deeply involved in their assignment.

GREAT EXPECTATIONS and fundamental elements of grammar and sentence structure are of great importance to freshman English students. Here Barbara Mayhugh gives an oral book report.

Julius Caesar is a familiar name among sophomore students of English. Mr. Flory's students also read about less familiar characters and practice basic grammar skills. Carson Hensley and Carol Morris inspect a bulletin board display.

The land of MACBETH, compositions, term papers, and English authors are well-known to all Senior students. Oral and written book reports, panel discussions, and talks before the class play an important part in preparing students for college and future employment. Here Dickie Myers, P. L. Kyger, and Cathryn Moats are diagramming sentences.

Junior students are confronted by Emerson, Thoreau, and transcendentalism as they work their way through American literature. Panel discussions, such as this one, short stories, and poetry also find their way into the endeavors of the Junior students.

Basic skills, such as child care, nutrition, sewing, and cooking, are some of the topics studied in Home Economics, which is a class designed to provide future wives and mothers with very necessary and valuable information. Our department also provides a new class for Vocational Home Economics.

HOME WORK

Culinary arts are a major part of the study in Eight Grade Home Economics. In this picture, Mrs. Stevens is giving instructions to Mary Jane Mundy and Margaret Harrison, while Kathy Dean and Becky Life remove cookies from the baking sheet.

Agriculture classes are designed to teach students basic principles of farming, the operation and repair of farm machinery, and the know-how of successful farming for today.

SHOP WORK

Through the patient guidance of Mr. Wagner, the students in industrial arts master the use of scroll saws, wood lathes, and other machines. They become skilled in working with wood, leather, and other materials.

Fast and efficient secretaries, such as Marilyn Loker and Faye Breeden, are produced in our business department. The use of dictating machines, adding machines, electric typewriters, and mimeographing machines enable students to develop a thorough knowledge of all types of modern office machinery.

WORLD OF BUSINESS

Bookkeeping students work amid a mass of ledgers, journals, sales slips, and purchases.

Dictation and transcription test the speed and accuracy in the use of shorthand in Mrs. Voorhees' classes.

IN SCHOOL AND ON THE JOB

Industrial Cooperative Training and Distributive Education offer the student the opportunity for on-the-job training. In the classroom students study the principles of salesmanship, how to set up displays, and basic rules of the business world.

Preparation for a future job in drafting is one of the purposes of mechanical drawing. In this class students such as Glenn Hoover, learn to read blueprints, and to make precision drawings. They use slide rules and protractors in making blueprints of everything from a screw to a house.

FINE ARTS

Imaginations flow freely in this creative class. The students produce everything from modern art to small statues. The beautiful surroundings of our school are often the object of these projects. Here Charles Garrison and Jane Burner are working on miniature statues.

PHYSICAL FITNESS

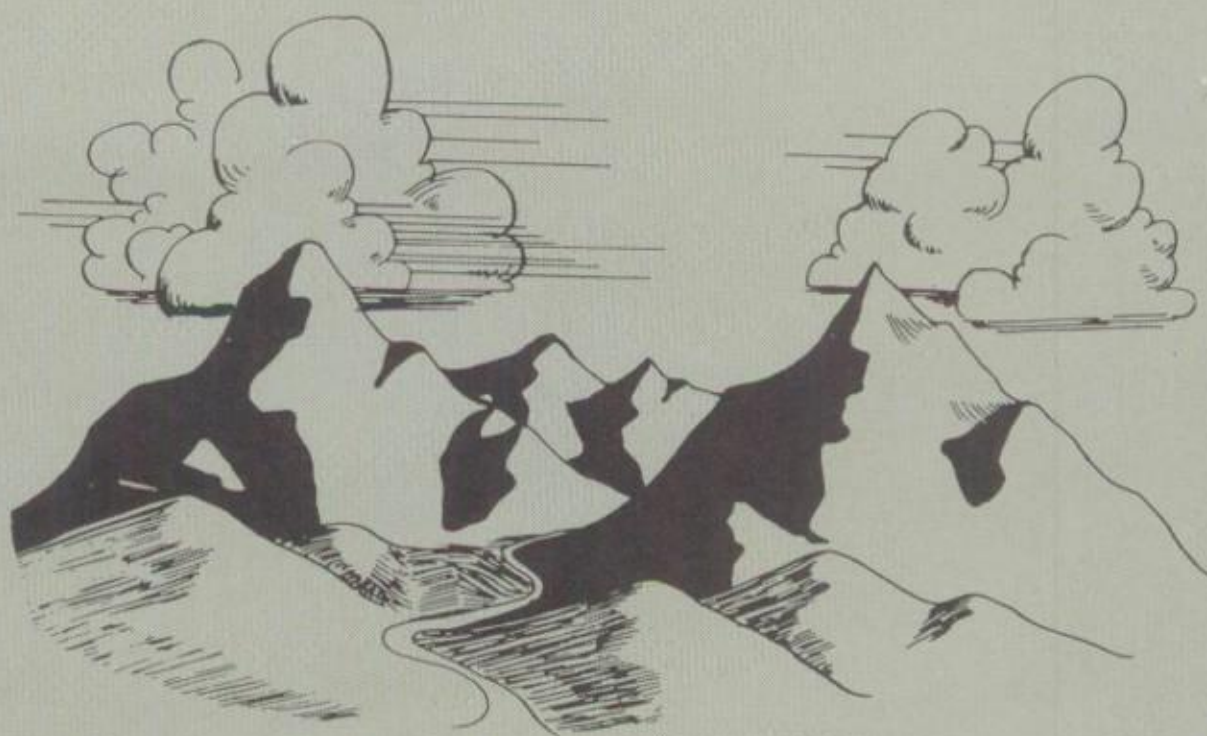

"Ready, exercise. 1, 2, 3 . . ." These are familiar words to all the students of Montevideo. Not only do the students participate in various sports and exercises, but also are instructed in hygiene, health, and diseases. Some of the classes of physical education are being offered a course in driver education.

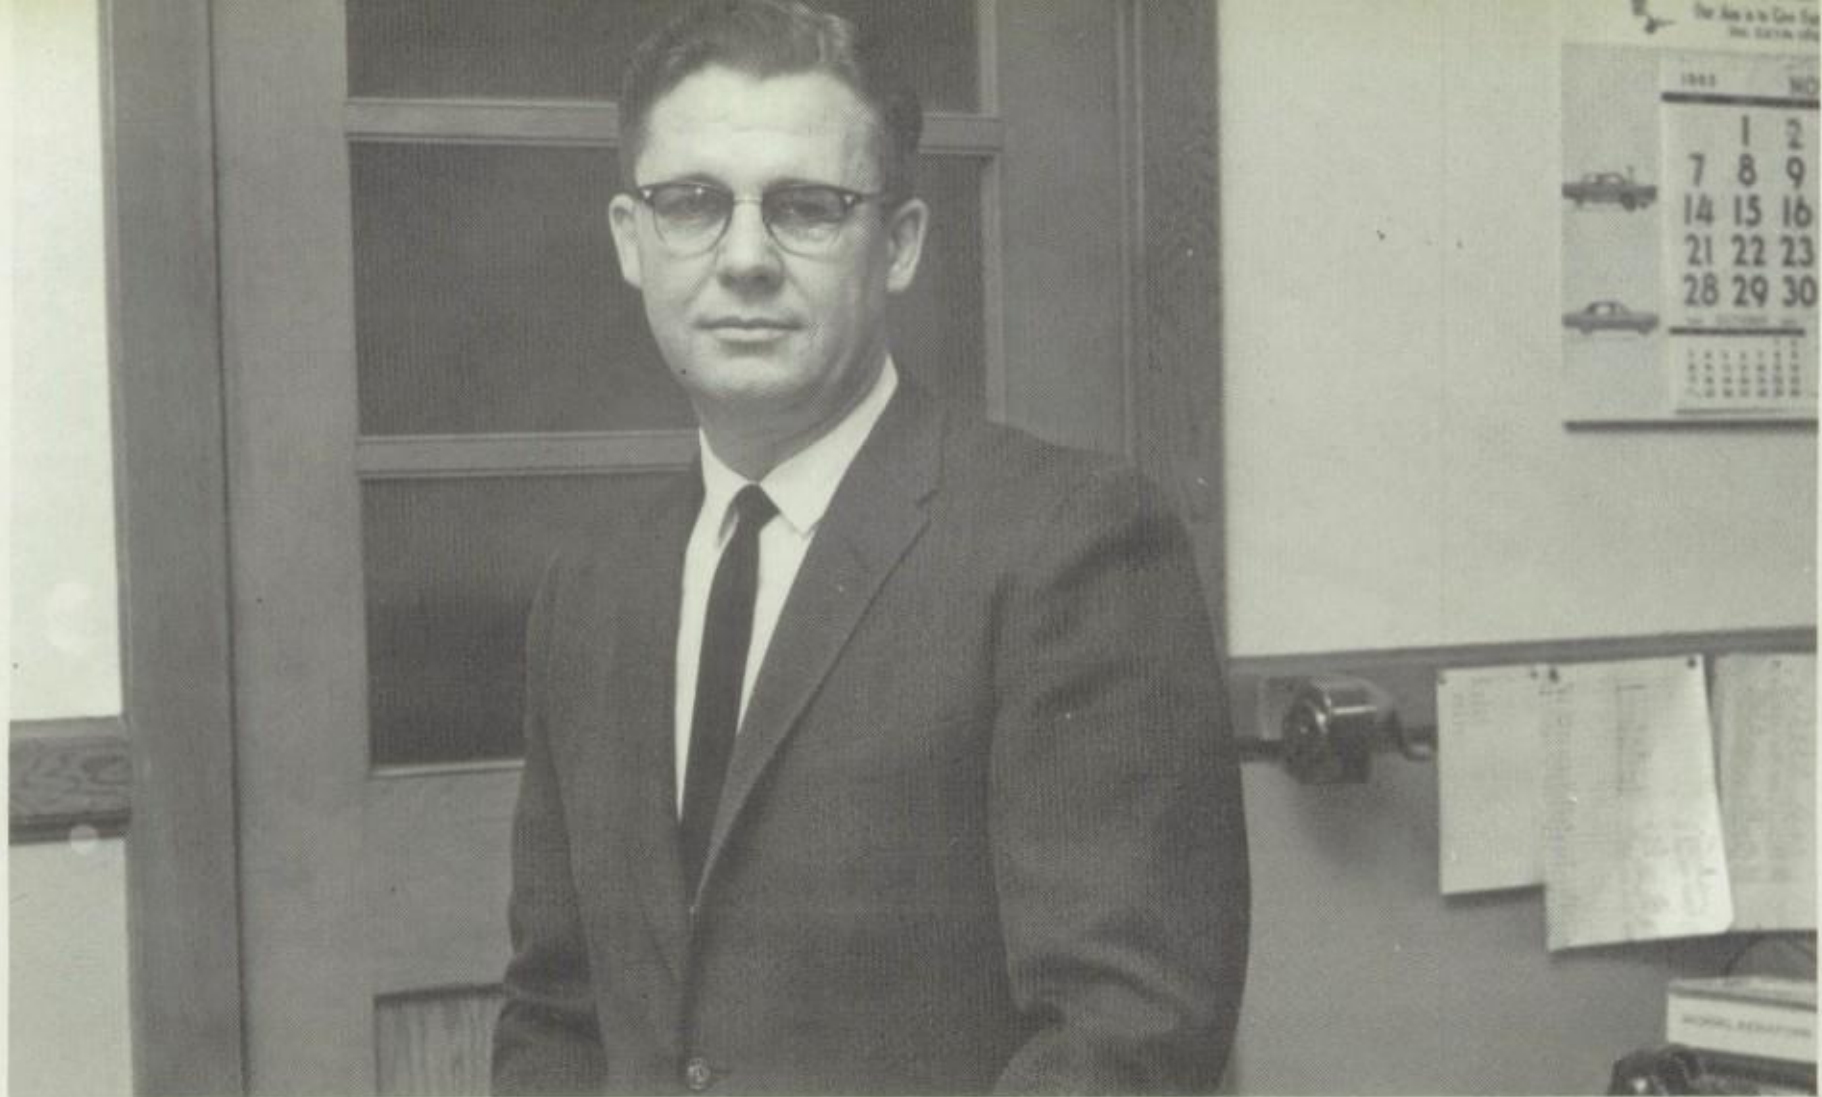

ADMINISTRATION

WITH THE ABLE GUIDANCE AND LEADERSHIP OF OUR FACULTY, THE STUDENT BODY HAS EXCELLED IN MANY WAYS. STUDENTS HAVE MATURED IN MIND AND IN ACTION; AND THEY HAVE BETTER PREPARED THEMSELVES FOR THE FUTURE.

OUR TEACHERS, WITH A KINDLY SMILE AND A FIRM HAND, HAVE LED THEIR PUPILS TO HIGHER GOALS AND A BETTER UNDERSTANDING OF THE WORLD AROUND THEM.

PRINCIPAL

MR. MANFORD B. WEAVER

A.B., Fairmont State College; M.A., West Virginia University

No words can express the praise entitled to our principal, Mr. Weaver. His position is clearly explained with the ableness in which he carries out his duties. His consistency and

leadership dominate as qualities typical of a president. His high standards require the students to build a better Montevideo High School.

After having been here two years, many changes have taken place at Montevideo. A new emphasis is being placed on our prime purpose, education. Mr. Weaver is behind this movement of reform. Thanks to this policy, Montevideo has received new status among neighboring schools.

ASSISTANT PRINCIPAL

MR. DENNIS B. WINGFIELD

A.B., M.A.

Madison College

Mr. Wingfield faithfully carries out the policies of our school. With his leadership, our attendance has improved and the new intermediate school is in capable hands. We are proud of his service to Montevideo.

IN MEMORY OF
NETTIE DALE BAKER

This past fall, the students of Montevideo High School were saddened by the loss of a true friend and fellow student. Nettie Dale Baker, a senior, is no longer with us, but will always remain in our memories for her staunch loyalty to friends, her deep sense of Christian duty, her awareness of the world about her, and the loving kindness she cast upon people around her.

We know that it is difficult to lose a true friend, and even more difficult to understand why, but we realize that there was a purpose in the taking of our friend, so to us this is our inspiration.

HONOR SOCIETY

CHAPTER

Our chapter awards scholarships to promising college-bound students and publishes a literary booklet, THE MAROON HERALD.

The highest scholastic honor which may be received at Montevideo is membership in the National Honor Society.

One of the projects for this year was a Powderpuff football game. Here team captains, Emily Long and Sylvia Diehl of the sophisticated senior team and Alicia Meadows and Sandra Morris of the lazy juniors embrace advisor, Miss Wright, during an afternoon practice for the game.

Judy Morris; Lois Hensley; Nancy Fitzsimons; Diane Raynes; Jane Long; Donna Dobbs; Susan Michael; Helen Gooden; Saufley, Carlyle Cline, Randall Kennedy, Whit Kemper, Wayne Pence, and David Bowman.

THE PEAK STAFF

"Talk about hard work . . ." groan Editor, Billy Cobbs; and Business Manager, Donna Dobbs, "we've aged 12 months in the past year."

Planning layouts, taking pictures, selling subscriptions, and meeting deadlines are all part of working on the PEAK staff.

It was only with much time and effort

that the 1966 PEAK was assembled. Without the students who wrote the copy, typed manuscripts, and identified pictures; this annual might not have come into being.

Advisors, Mr. Flory and Mrs. Sipe; join Assistant Editor, Penny Bowman; and Assistant Business Manager, Carol Coffman in admiring an earlier PEAK.

Our hard-working typists are Donald Trobaugh, Brenda Huffer, and Dickie Myers.

Academics co-editors, Wanda Shifflett and Joyce McInturff compare their work with that of the '65 PEAK Staff.

Classes co-editors, Susan Cougill and Cinda Hinegardner check their dummy sheets with Dale Taylor and Mary Armentrout.

Girls' and boys' sports co-editors, Jean Long; Dede Wilson; Jim Glenn; and Ronnie Heatwole confer with their staffs--Lois Boyers; John Cougill; John Dinsmore; and Doug Helmick.

Art co-editors, Linda Wagner and Jane Long, search old annuals for new ideas as their understudies, Dorothy Jarrels and Gary Saufley watch. Photographer Frank Marshman and his assistant, Ronnie Simmers, look on.

Co-editors Lois Hensley and April Jackson give a sigh of relief after deciding "where to put what" in the activities section. Looking on are Susie Hulvey and Gail Powers.

THE PEAKAZETTE

SL '65

Editor Linda Wagner and Business Manager, Larry Suter.

The PEAKAZETTE, Montevideo's newspaper, serves as a news media of all the school to students and faculty. The staff, led by Linda Wagner, works hard to find the news and then puts it into print.

School spirit is encouraged by the paper, as sports and extra-curricular activities are

Advisor, Mrs. Nancy Voorhees; Assistant Editor, Susie Hulvey; and Assistant Business Manager, Carol Coffman.

reported in it. There are also articles written which give students a chance to express their views on situations in the school, nation, and world.

Congratulations to the PEAKAZETTE staff for a job well done.

"The PEAKAZETTES are out!" is the happy cry that greets Linda Wagner as she makes her rounds 6 times a year. Below, she hands Mr. Nelson the PEAKAZETTES for his sixth period class.

Typists, Mary Miller; Linda Frye; and Dickie Myers.

It sponsored a children's Christmas party and the program for Fall Open House, featuring three foreign college students as speakers. Community projects included the Easter Seal campaign and serving banquets. A Parent-Daughter banquet and annual trip concluded the year's activities.

The Montevideo Chapter has a total membership of 141 girls making it one of the largest organizations of the school.

The fundamental purposes of the Junior Classical League are to encourage among young people an interest in and an appreciation of the civilization, language, literature, and art of ancient Greece and Rome, and to give them some understanding of the debt of our own culture to that of classical antiquity.

All students who are now taking Latin or

who have completed at least two years of Latin may become members of the Junior Classical League. First Year Latin students are known as slaves, second year students as freedmen, and those who have completed their study of Latin are known as veterans.

This year there is a membership of 145 in the league. The local group is also a member of the state organization and is eligible for offices in this.

FEATURES

THE SPIRIT OF MONTEVIDEO WAS REFLECTED THROUGH THE COLORFUL HOMECOMING ACTIVITIES. OUR REPRESENTATIVES CARRIED THIS SAME SPIRIT WITH THEM TO VIRGINIA BOYS' AND GIRLS' STATE HELD DURING THE SUMMER. A DETERMINED SPIRIT SIMILAR TO THIS WAS

DEPICTED BY THE PARTICIPANTS IN THE SENIOR PLAY. PERHAPS THE TRUE SPIRIT OF MONTEVIDEO, THOUGH, ORIGINATED IN OUR "MAROTEER", WHOSE ACTIVITIES AS MASCOT, GENERATE THE SPIRIT THAT IS DEEPLY ROOTED IN EACH STUDENT AT MONTEVIDEO.
